

Face to Face with Hypoglycemia

Embracing rtCGM as a Tool to Help

Join us for an engaging educational session featuring **Trish Molberg BScPharm, CDE**, as she delves into the challenges surrounding hypoglycemia and practical strategies for safe management.

Learning Objectives

- Describe real-world hypoglycemia risk and the evidence for technology as tool to improve outcomes.
- Explore the complex interplay of personal experiences with hypoglycemia, and its impact on diabetes self-management.
- Through case examples, review effective and safe practical management strategies to address hypoglycemia.
