The FreeStyle Libre System:

An innovative way to monitor glucose without routine finger pricks*

YOU CAN DO IT

WITHOUT LANCETS†

JOIN US!

Dates and Locations:

Time:

* Wear comfortable clothes (Top) with easy access to upper arm area to apply the sensor

LEARN MORE ABOUT THE FREESTYLE LIBRE SYSTEM BY VISITING FREESTYLELIBRE.CA

* A finger prick test using a blood glucose meter is required during times of rapidly changing glucose levels when interstitial fluid glucose levels may not accurately reflect blood glucose levels or if hypoglycemia or impending hypoglycemia is reported by the system or when symptoms do not match the system readings.

† Scanning the sensor does not require lancets.

The FreeStyle Libre flash glucose monitoring system is indicated for measuring interstitial fluid glucose levels in adults aged 18 years and older who have at least 2 years of experience in self-managing their diabetes. For *In Vitro* Diagnostic Use Only. Always read and follow the label/insert for detailed instructions and indication of use.
